

Senior Business Analyst – Exchange Connectivity

HS299

Hatstand (www.hatstand-ltd.com), a niche City of London based consultancy, is looking to recruit a senior Business Analyst to join the Exchange Connectivity Team within a top tier European investment bank. Candidates must come from an investment banking background with at least 5 years relevant experience within the sector.

The successful Business Analyst/ Project Manager will use their excellent knowledge of Exchange Trading / Cash Equities to contribute to global integration strategies, solutions and implementations. The main programme of work will be the Exchange Connectivity migration project, to migrate all European equity and derivative exchange flows onto the new strategic architecture, as well as understanding & migrating the non-exchange specific functionality that the legacy system is currently used for.

Responsibilities

- Clarify and deliver business and functional requirements as well as manage programme reporting for the Exchange connectivity migration project
- Liaise with key business stakeholders to determine their requirements and determine pragmatic releases
- Participate in testing and implementation activities where it is feasible.
- Determine a successful implementation plan for the project, given their understanding of the risks and requirements of the business.

Requirements:

- Knowledge of Equity and Derivative Exchange Trading
- Knowledge of European capital markets and their order types/rules, at least the major markets.
- Deep knowledge of Single Stock, Program and electronic trading flows and trends a big advantage.
- Must have the knowledge and understanding of the processes within the business from order to input to trade settlement.
- Strong relationships with the Front Office, Operations, Finance and business
- Experience in all aspects of trade capture, risk and P&L - knowledge middle office flows a strong plus
- Experienced in the front-to-back Equities Trading Applications
- Ability to work across global product streams i.e. Cash Equities, Derivatives, Futures and Options

Candidates must come from a financial markets background with at least 5 years recent experience within the sector. Candidates who do not meet this requirement will not be considered.

Contract: 6 months
Rate: £450 - £550 DOE
Start Date: January 2010
Location: City of London
